By field

Grouped from the department each person listed.

Source: bitcoin_corpus database (view teaching_talks_map), exported Nov 4, 2026. Each person is placed at the school on their latest submission; five small schools are placed at the center of their city. Class names are copied from each response; where none was named, a short description is shown in italics. Corpus papers are matched by author email or exact name. 1 educator was added by hand, not from a BEI form. The educators' written form answers and syllabus links are not published here.
